Attached is a draft paper on action to be taken if the Soviets seem to be turning us down or unduly stalling on the IL-28's.

This is the paper Secretary McNamara suggested at the end of the NSC ExCom meeting here in the Department this morning.

The Defense Department (Paul Nitze's office) would like to see it. Can we send them two or three copies to look at?

Abe Chayes has drafted the OAS Resolution, and has gone over the rest of the material. Ed Martin has approved the OAS Resolution and the covering paper. The covering paper has also been cleared by Alex Johnson.
